MONEY, STOCKS AND BONDS.

Strong Tone Developed in the Market-Sudden Rise in Sugar and Tennessee. NEW YORK, March 1 .- Money on call was easy at 3 to 5 per cent., the last loan being made at 312, closing offered at 4.

Prime mercantile paper 5@7 per cent. Sterling exchange dull but steady at \$4.8012 for sixty-day bills and \$4.8412 for demand.

The total sales of stocks to-day were 113,-029 shares, including the following: Delaware, Lackawanna & Western, 7,240; Louisville & Nashville, 6,400; Missouri Pacific, 2,100; Reading, 16,200; St. Paul, 7,000; Union Pacific, 9,350.

The stock market to-day was again dull, and after a temporary depression developed a materially stronger tone than it has seen in some days. There was a drive at the list as usual in the early trading, but its results were not of special importance, and, as during the week, the por stent pressure of the "bears" to force lown prices has met with but partial cess, the depression to-day was only The attack this morning was made upon the expectation that the bank reserves would show a talling off of about two and a half millions, but the statement of the loss fell a million short of that amount, and as there had been good buying all along the line at the concessions, the rush to cover after the result was known made a sharp and material good rally. Of course, the decline in sterling easy. exchange rates, although the flurry in money incident to the disbursements of the first of the month were partly responsible for the lowering of these rates, gives a promise that there will be receipts of gold from the other side and a consequent improvement of the tone of the speculation. The "bears" were helped in Union Pacific to-day by rumors of an un-favorable nature in regard to the annual report, but the fereigners were buyers and heavy covering was done. The bituminous coal stocks were specially weak also in the early dealings, but the rally brought them up again and Tennessee finally scored a handsome gain, though Colorado Coal was sluggish. Sugar strongest stock, and was put up by its friends to catch some stop orders. The remainder of the market was devoid of feature, and the market finally closed quiet but strong, generally at a shade better than the opening prices. The final changes are for slight fractions as a rule.

but Sugar is up 34, and Tennessee Coal 23s. Railroad bonds were duller than usual of late, and the transactions in the two hours of business reached only \$372,000. The tone of the market was generally steady, but all the important changes in quotations are in the direction of lower figures. The sales of bonds for the week aggregated \$4,265,000, against \$5,179,000 for last week. Government bonds were dull and steady. State bonds were neglected. Closing quo-

TRADING AT CHICAGO.

Wheat Active and Higher-Corn Steady-Oats Weaker-Pork a Little Lower. CHICAGO, March 1 .- A firm feeling was again developed in the wheat market, and while there were numerous fluctuations, the closing was better than yesterday. The opening was 400 se higher and prices were advanced 3sc more, fluctuated some and closed 19205sc higher than yesterday. A good aggregate business was transacted. and the influences presented were mainly favorable to the interest of holders. A rereceived that the duty on wheat in Portugal had been removed, and another that the duty reduced 8c per bushel The duty has been 295sc per bushel. A cable report was also received stating that the winter crops in southern Russia had been ruined, but this must have been exaggerated, for the foreign markets would have responded more forcibly than they did to such a piece of news. Indications were for a decrease of about 600,000 bushels in the visible supply. It was reported that a cold wave had extended as far south as New Orleans. In the West the weather was moderating some. Corn ruled quiet most of the session, though early there was a little life manifested, but the trading was only moderate and the bulk of the business was local. The feeling prevailing was steady, and values showed little

change from yesterday. May oats were traded in with more freedom than the other leliveries, and prices receded 380 under fair selling by a large operator. On the break he turned and bought, and a rally of 4c followed, and the last sales were at a shade below the prices of yesterday. In mess pork a fair trade was report-ed, but the feeling was somewhat unsettied. Early the market was stronger, and prices ruled 2½@5c higher, but a weaker feeling was developed later, and prices settled back again 7½@10c, and closed at medium figures. A quiet and rather steady feeling prevailed in the lard market. Early prices ruled about .031ge higher on the deferred deliveries, but this improve-ment was lost later in the day. In short ribs a moderate trade was reported, and the feeling was comparatively steady. Sales at outside prices were made early, and during the latter part of the session slight re-

ductions were submitted to. The leading futures ranged as follows:

general drift is toward a higher level. All signs point to an early advance in package coffee, as it has been for some time back relatively too low for the price of the green article. The iron, the hardward and tin-ners' supplies' markets are all firm in tone, but the tendency to higher prices has been checked somewhat. Druggists, as for some weeks past, are having an excellent trade and prices on all goods they handle rule firm. Trade with the dry-goods houses is still slow, while prices carry a very strong

ington, special deputy to institute it. The triennial cantonment of Patriarchs Militant will probably be held in July. The place has not yet been selected. Chicago and Buffalo have been mentioned. Inquiries are being made about the time the new Indiana Digest would be issued. The copy is in the hands of the printers, and is being put in type as fast as possible. The proof of over 600 decisions has been read. There are over 1,600 decisions, and it is impossible to fix any special time for completing the work, but it will be done at the earliest moment possible.

The statement in a city paper that Olive Branch Lodge, D. of R., of this city was the largest lodge in the country is not correct. In Lynn, Mass., there is a Rebekah lodge with more than six hundred members. Olive Branch is undoubtedly the largest lodge in the West, but the last report gave her only 437 members. The remark about the paraphernalia being the finest in the country is perhaps true.

Knights and Ladies of the Golden Rule. Castle Marion initiated six applicants last Wednesday evening, and expects to initiate ten more at its next meeting. One of the most pleasant events in the history of Castle Good Will, occurred at the residence of Mr. Baker, No. 35 Arsenal avenue, Friday evening, the occasion being a mush-and-milk supper, and a presenta-tion of testimonials of regard to D. C. and Harry Southard, previous to their de-parture for their new home in Illinois. T.J. Chapman, in behalf of the castle, presented D. C. Southard with a handsome gold-headed cane. Mrs. Chapman then presented Harry Southard with a china set. Regrets at their departure, and good wishes for their future, were tendered. After that, the guests enjoyed a bountiful supper, pre-pared by Mrs. Baker. The following were among those present: Mrs. Baker, Mrs. and Miss Dowell, Mr. Southard, Mr. and Mrs. Sellars, Mr. and Mrs. Chapman, Mr. and Mrs. Richardson, Mr. and Mrs. Leonard, Miss Sherman, Miss Richardson, Miss Da-

Miss Kittie, Betrothed Sweetheart of the Famous Mr. Crowley, Succumbs to a Bad Climate.

NEW YORK, March 1 .- Miss Kittie, the former fiancee of Crowley, died in her cage, the old Arsenal Building, Central Park, this morning of consumption. Yesterday Jake Cook, her keeper, noticed that her appetite was beginning to fail. She had been in the habit of eating a pound of grapes every day, but yesterday she ate only half a poundthis with evident difficulty. All night long Jake watched by the bedside of his charge, holding her hands and trying to soothe her. She suffered greatly, and frequently tried to expand her chest, while she looked beseechingly at her faithful friend as if begging him to relieve her. A 2:40 o'clock she arose suddenly, turned away from her keeper, and fell to the floor gasping for breath. Jake quickly raised her head, but saw in a moment that she was

When Miss Kittle arrived she was but two years old. In accordance with the traditions of the chimpanzee family, marriages between members of that family must not take place until each of the contracting parties are four years old. A courtship of two years was, therefore, in prospect for Mr. Crowley, who immediately started in upon the labor of love. From that time on dates the romantic story of the Crowley engagement. Everything seemed to be progressing as happily as the proverbial marriage bell, and, apparently, the hopes of both the chimpanzee lovers were to be ealed by marriage within a few short months. when, about Aug. 1, 1888, Mr. Crowley had an attack of indigestion, which weakened him, and, when he caught cold a few days afterwards, pneumonia set in. His lungs had always been weak, and, on Aug. 31, he succumbed to the fell destroyer. and died at the early age of five years, a victim to the variable climate of the metropolis. Thus was the prospective joy o

Miss Kittie turned to grief. Miss Kittie has been accustomed to hold public daily receptions in front of her cage from 9:30 A. M. to 4:30 P. M., and thousands of nurse girls and children, besides a good sized quota from the rest of the Empir City's population, have each month stood in front of her big iron-barred cage and delightedly watched her antics. She preserved the best of health up to within six months ago. Mr. Crowley had the honor of having been the chimpanzee that was long est kept alive in captivity in the United States. Miss Kittle stands next in this re-

They Favor Local Option.

Special to the Indianapolis Journal. GREENTOWN, Ind., March 1.-The Hon. E B. Reynolds, of Wayne county, addressed a large and intelligent audience here, last evening, on temperance reform, and his observations thereon struck a responsive chord in the hearts of the great majority of those present. His argument for local option as the most practical method of dealing with the traffic at the present and the one that is possible of attainment was impressive and unanswerable. Over thirty voters signed the pledge that they would use all honorable means by voting and otherwise to seen to the nomination and election of persons as members of the next Legislature who would favor this legislative policy.

Arrested Upon a Grave Charge. Special to the Indianapolis Journal.

MARION, Ind., March 1 .- Jasper N. Watson was arrested here this morning, charged with subornation of perjury. Two months ago Miss Nora Macy made complaint against Burr Harris, alleging that he was the author of her downfall. The girl has since weakened, and now declares that Watson is the author of her misfortune and that Watson induced her to swear to the charge against Harris. Watson is a saloonkeeper. His crime is punishable with imprisonment of from two to twenty-one

Suicide of a Scientist.

NEW YORK, March 1 .- John Griscom, forty-eight years old, was found dead in his room at No. 47 Park street this morning, having committed suicide with illuminating gas. He had attached a rubber tube to the gas-burner, turned on the gas, and buried his head under the bed-clothing, with the end of the tube next his mouth. He had evidently been dead some hours. The suicide was a man of some prominence in the scientific world and in railroad cir-

Brakeman Killed.

Special to the Indianapolis Journal. CAMBRIDGE CITY, Ind., March 1.-Charles Clark, a brakeman on the Cambridge and Madison branch of the J., M. & I. railroad, fell off a swiftly-moving freight, this morn ing, near Thornburg's hill, about three miles from this city, and was instantly killed. When found he was cut and bruised in a terrible manner. He was taken to his home at Columbus, Ind.

FRANK M'GOWAN'S DISAPPEARANCE.

One of Edison's Trusted Assistants Missing-A Hero of Adventure and Romance.

NEW YORK, March 1 .- One of the most mysterious disappearances ever reported to the police is that of Frank McGowan, who was last seen on Jan. 15, when he boarded a Christopher-street car on his way to his home in Orange, N. J. For ten years Mc-Gowan has been in the employ of Thomas A. Edison. He was the hero of the remarkable series of adventures that befell the expedition sent to South America by Edison in search of a peculiar species of bamboo to be used in his electric-light system. Mr. McGowan, who was a protege of the great inventor, endeared himself to Edison by succeeding in a dangerous undertaking where other agents had failed. So indispensable was this rare variety of bamboo fiber that Edison sent two expeditions to scour the world in search of it. When they both returned unsuccessful, McGowan volunteered to head a party. After a hunt of two years, during which he endured hardships enough to kill a dozen men, he located the growing-place of the bamboo, and returned home, after traversing nearly the whole of South and Central America. His health was completely shat-tered, and he felt somewhat discouraged, for, while his search had been successful, it for, while his search had been successful, it was so protracted that Edison's fertile mind had had time to invent a substitute for the peculiar species of bamboo that he had ventured so much to discover. Edison remembered his achievement by the present of \$2,000 and a block of stock in his company, and McGowan went to Bath beach for the summer in search of health. This he apparently regained, for he had grown as robust as ever when he went to Orange, last September, and superintended the erection of some buildings that Edison was putting up.

was putting up.
On Jan. 15 McGowan called at the cigar
manufactory of Ernest Rau, No. 131 Clinton
manufactory of Ernest Rau, No. 181 Clinton place, and after transacting some business there left for his home. Since then nothing has been seen or heard of him. When it became known for sure that he was lost, Mr. Batchellor, of the firm of Edison, Batchellor & Johnson, inaugurated a systematic search for McGowan. All the hospitals, asylums and other public institutions within a hundred miles were visited. Circulars containing a description of the missing man were distributed, three of Pinkerton's detectives were employed, and Inspector Byrnes sent out the second alarm, but so far not a trace of McGowan has been

John F. McGowan, the missing man's cousin, knows more about Frank than any one else, but he is altogether in the dark as to the reason of his strange disappearance. He is also of the opinion that the man has been murdered for his money. He said: "There was a romance in his life which I paid little attention to at the time, but now I see that it might perhaps account for his strange disappearance. He con-tracted a fever while in South America, and when he was lying at the point of death a beautiful native girl took pity on the young American and nursed him back to life. Frank never tired of speaking of the devotion of this girl. He said he had seen many beautiful women during his trip around the world, but he had never met one who was quite as lovely as his little nurse. I used to laugh at him for his sentiment, but he merely smiled and went on singing her praises. It might be went on singing her praises. It might be that he felt a longing to see his preserver again and started off on the spur of the moment, but that is very improbable. There was no reason for his employing any secrecy about such a step. No one would have tried to prevent his going and none knew better than he the folly of making such a trip without the pecessary preparasuch a trip without the necessary prepara-

NOT A RAINBOW CHASER.

Mr. Depew Denies Rumors About His Resignation and Quest of the Presidency.

New York, March 1 .- President Chauncey M. Depew was seen to-day at his office, in the Grand Central Depot, with regard to a report that appeared in a morning paper that he was about to resign his position with the New York Central, in view of his probable nomination for the presidency of the United States by the Republican party. A good deal of the bonhomie that usually characterizes Mr. Depew was not apparent. Although courteous as ever, he seemed a good deal chagrined as he spoke of the matter. He said: "I have read the story you refer to. It is a mere fabrication, as void of foundation as the baseless fabric of a vision. Mr. Depew is not in the babit of throwing up a good thing until he sees his way to a better one. I have an honorable position and a satisfactory income, and am not going to throw them up to chase dreams or rainbows, and that reply covers the entire story." And Dr. Depew bowed the reporter out in his usual graceful

No More Chicago Quotations After March 31. CHICAGO, March 1.—A new blow at the bucket-shops was struck to-day by the Board of Trade. That at least is the way the action taken this afternoon by the directors of the board is generally regarded. The directors decided to abolish the gathering and dissemination of quotations. The destruction of the elaborate what, if anything, will be substituted, can only be surmised. Most people believe that the cessation will be only temporary, and that after having broken up the advantages now enjoyed by the bucket-shops by reason of various injunctions the board will at once resume the service. It is even asserted that the stoppage will not last, at the outside, over twenty-four hours. The new move was announced in an elaborate set of resolutions adopted by the directors this afternoon.

Policeman Fatally Shot in the Dark,

Special to the Indianapolis Journal. Madison, Ind., March 1.-Michael Gallagher, policeman, aged fifty-five, was fatally shot in the abdomen by an unknown assassin, at 4 o'clock this morning. He had just awakened, as usual. Frank Phillips, a baker, and started south on West street, when the shot was fired, apparently from the doorway of Cruzan's saloon, not five feet away. Gallagher staggered back to Phillips's house, and was later removed to his home. The assassin escaped, leaving no clew. At a late hour to-night Gallagher is still alive. The ball, which entered the abdominal cavity, has been probed for, but not located. The theory that the shoot-ing was accidental or done by his own hand is emphatically denied by Gallagher.

Murderer Promptly Lynched. SALIDA, March 1.—Rumors have been re-ceived here regarding a murder and the lynching of the murderer last night at Val-lie Station, fifteen miles below here. A. M. Wassen, who runs a saloon and dance-house, got into a quarrel with a railroad man, working with a crew broad-gauging the railroad, and the railroad man knocked Wassen down whereupon Wassen drew a revolver and shot his opponent, who died almost instantly. A crowd soon gathered

and took Wassen out and hung him to a

tree near the scene of the murder.

Family of Four Killed by Outlaws. OKLAHOMA, Ind. T., March. 1.—News from Shawnee, a town thirty miles east of this city, says that the dead bodies of a man named Holmes, his wife and two children were found on Thursday a few miles west of Shawnee. They were returning to their claim, a few miles from this city, when they were killed, it is supposed, for their money, by the outlaws that infest the Pottawattomie reservation. There is no clew to the assassins.

Insurance Company Decides to Dissolve. PROVIDENCE, R. I., March 1.—The stockholders of the Atlantic Fire and Marine In-surance Company voted to-day to authorize the directors to wind up the affairs of the company as soon as it can be done to advantage; from time to time to sell and realize on the assets, reducing the same to cash for paying debts and liabilities, and that the balance be divided among the stock-holders. It is understood that the company lost heavily by the Lynn and Boston fires.

Aunt Betsey Trotwood hated donkeys, and used to startle her nephew, David Copperfield, with the suddenness of her raids upon them, when they infringed upon her boundary line, and if you wish to utterly rout Biliousness, Liver Complaint or Indigestion, when they infringe on your good health and enjoyment of life-just make use of Dr. Pierce's Golden Medical Discovery. It's the most effective, anti-bilious medicine extant. Besides, it contains no alcohol to inebriste; no sugar or syrup to ferment and interfere with the digestive process. It's also strengthening and healing to the lungs. For weak lungs, spitting of blood, lingering coughs and kindred ailments, it is a wonderfully efficacious remedy. It's the only guara seed Liver, Blood and Lung Remedy sold. Remember, you get benefit, or money returned. WORLD'S DISPENSARY MEDICAL Association, Proprietors, 668 Main Street, Buffalo, N. Y.

Cetarrh in the Head by the proprietors of DR. SAGE'S CATARRH REMEDY.

SYMPTOMS OF CATABRH.—Headache, obstruction of nose, discharges falling into throat, sometimes profuse, watery, and acrid, at others, thick, tenacious, mucous, purulent, bloody and putrid; eyes weak, ringing in ears, deafness, difficulty of clearing throat, expectoration of offensive matter; breath offensive; smell and taste impaired, and general debility. Only a few of these symptoms likely to be present at once. Thousands of cases result in consumption and end in the grave.

By its mild, soothing, antiseptic, cleansing, and healing properties, Dr. Sage's Remedy cures the worst cases. This infallible remedy does not, like the poisonous irritating snuffs, "creams" and strong caustic solutions with which the public have long been humburged, simply palliate for a short time, or drive the disease to the lungs, as there is danger of doing in the use of such nostrums, but it produces perfect and permanent cures of the worst cases of Chronic Catarrh, as thousands can testify. "Cold in the Head" is cured with a few applications. Catarrhal Headache is relieved and cured as if by magic. It removes offensive breath, loss or impairment of the sense of taste, smell or hearing, watering or weak eyes, and impaired memory, when caused by the violence of Catarrh, as they all frequently are. By druggists, 50 cents.

Agitating Canadian Independence. MONTREAL, March 1.-A league has been formed here to bring about the independence of Canada by 1892. All the American powers are to be asked to exert their influ-ence, and, if needs be, concerted action taken to free the country from the last vestige of European rule on the continent.
The league will have united with it all the
Liberal clubs in the country. American
universities are to be invited to co-operate, as well as political bodies who have for their object the bringing about of the final triumph of democratic institutions throughout the world. The league will be under the control of a supreme council, whose actions will be kept secret. This new departure, coming after recent actions of Liberal clubs in declaring for independence, causes much comment here. J. X. Perrault and the "Young Liberals" are at

the head of the movement. Mysterious Death of a Child. Johnstown, Pa., March 1.—Last Wednes-day three children of Washington L. Boyer were taken suddenly and mysteriously ill. They showed symptoms of poisoning, which was attributed at the time to their having eaten heartily of canned fruit. Yesterday one of the children died. and a few hours after the child's death an agent of the Metropolitan company, which insures children and babies, called at the office of Dr. Matthews, who attended the children, and asked him to sign a certificate as to the cause of death. The general mystery surrounding the sickness of the children aroused the doctor's suspicion, and he refused to sign the certificate until a further investigation. The coroner will hold an inquest. The children were all insured in the Metropolitan company, Boyer paying 5 cents a week on each of the three children. The family is in poor circum-

Cherokee Strip Boomers Organize. St. Louis, March 1.-The boomers or 'sooners" who are now congregated in and around Arkansas City, Kan., ready to pounce upon the best lands in the Cherokee strip, when that coveted section is proclaimed open to settlement, held a mass-meeting, last night, in conjunction with citizens of Arkansas City, and, after several speeches of the old-time booming order were made, the Arkansas City Cherokee Strip Colonization Association was organized, with O. Ingersoll as president and T. W. Eckert secretary. Resolutions, praying for the early opening of the strip, were adopted, and another meeting will be held Monday, when a bareau of information will be formed, and definite plans of action

agreed upon. An Illinois Railroad in the Courts. SALEM, Ill., March 1 .- In the Circuit Court here, yesterday, Judge Burroughs granted a decree of foreclosure to the mortgagees of the Jacksonville & Southeastern Railway Company, in the amount of \$1,100,000. He holds, however, that the judgments obtained by certain Centralia property-owners shall be prior liens to the extent of constitutional damages, and gives the bondholders the right to re-open the case for the purpose of ascertaining what the amounts of constitutional damages are. An appeal will be taken by the bondhold-

ers to the higher courts.

The Mas Supposed to Be Silcott. CHEHALIS, Wash., March 1 .- The sheriff arrived here to-day with the man arrested at Toledo, yesterday, supp cott. He gives the name of E. E. Thayer, and is apparently attempting to conceal his identity. He claims to have been a resident of Washington, D. C., and to have

known Silcott. Ex-Sergeaut-at-arms Leedom, who is in Washington, said to-day that he had received no notification of the capture of Silcott. Some time ago he received an inintimation that Silcott was in Oregon, and sent descriptive circulars, to be distributed in that section of the country.
